

**Jeffrey Restuccio, CPC, CPC-H**  
**Coding and Billing Consultant**

Jeff is a resident of Memphis, TN since 1980. He has two coding certifications: the Academy of Professional Coders (AAPC) certified professional coder for physician (outpatient) reimbursement and the AAPC certified professional coder for hospital (inpatient) reimbursement. Jeff has been a certified coder since 1999.

Jeff is currently teaching national, Ophthalmology/Optometry coding and billing seminars for Cross-Country Education (Sept 2007 to the present.) As of March 2009, Jeff has taught over sixty classes in sixty cities. Jeff is on the Advisory Board for the Coding Institute *Optometry Alert* Newsletter (March 2009).

Jeff manages and has written the online curriculum for the [www.eyecodingforum.com](http://www.eyecodingforum.com) website. This online coding, documentation and billing course for optometry (and ophthalmology) has over 373 PowerPoint slides and includes audio commentary for each group of slides. The course includes comprehensive information on coding, documentation, ICD-9, CPT, HCPCS, E & M and the eye Exams.

Jeff currently teaches a one-hour live presentation on Optometry Coding and Billing for office visits and common procedures (ARBO 24352-PM) and Jeff authored the six-hour, online coding and billing course on [eyecodingforum.com](http://eyecodingforum.com) (ARBO 24415-PM)

Jeff has been providing coding and billing training since 1999 both as an inservice and through his websites: [www.eyecodingforum.com](http://www.eyecodingforum.com) and [www.ritecode.com](http://www.ritecode.com).

In addition, Jeff:

- Has an extensive Information Systems background and an MBA from the University of Memphis.
- Reviewed and edited Medical Assistant Courseware (manuals) for Elsevier Publishing. 2004.
- Served as interim Coding Auditor at the Seymour Johnson Air Force Base. Has DOD clearance. 2004-2005.
  
- Worked as an independent Consultant at St. Jude Hospital for 15 months from Jan 2003 – March 2004.
  1. Creating a carrier-specific billing database to ensure clean claims the first time.
  2. Training staff for the AAPC CPC coding certification Exam.
  3. Preparing the office for the new billing system.
  4. Denial analysis.

Has recently finished writing a comprehensive coding and billing curriculum for an accredited, online, coding and billing college course in California. The modules include:

- Coding Introduction
- Coding Intermediate
- Coding Advanced – Prep for a Certification Exam.
- HIPAA training.
